

ZIPPER MULTIFILAMENT WRAP

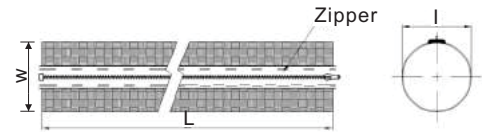

Zipper multifilament wrap firstly has the same function as zipper braided wrap, easy to be installed and uninstalled and excellent anti-abrasion performance, and furthermore offers better dust resistance due to tight weaving construction. This kind of sleeving can provide variety of sizes to accommodate any harnessing and cable management application owing to its flexibility.

Application

Drawing

Most commonly be used on wires, wire bundles and harnesses, computer power cords, tubes and hoses to provide a tough, durable protection in several industrial fields.

Datasheet				
Part No.	I.D. (I)	Spread width	Max. bundle dia.	Packing (m)
PZTW-25	25	88	27	On request
PZTW-30	30	104	32	
PZTW-35	35	120	37	
PZTW-40	40	135	42	
PZTW-45	45	151	47	
PZTW-50	50	170	52	
PZTW-60	60	198	62	

Unit : mm

Technical data	
Wrap material	Polyester multifilament
Operating range	- 50°C- +150°C
Melt point	240±10°C
Flammability	VW-1
Standard color	Black
Certificate	RoHS

Notes:

- 1.Nominal size indicates the flat width , I.D. indicates round inner diameter.
- 2.The part No. will be followed by BK, WH, GR and so on to indicate the color .
- 3.Special packages, sizes and colors can be supplied upon request.
- 4.All numerical data are average value, not including customized sizes.
